LOWER SHENLEY AC

1. W. Evans Carp & Tench on Pole & Pellet	(GRATUITIES) 29-3 Peg 15
2. E. Jones	19-8
3. S. Blake	16-7

REPORT

MOLANDS F1's and skimmers showing all around the pool and catches to 40lb can be made from most pegs. Paste fished down the near margin or pellet at 8 – 10 metres are the best tactics for these. Carp are showing better on the early pegs 1 – 4 and from peg 23 round to peg 46, pellet or method feeder fished tight up to the far bank with beaded pellet or polony is the best bait for fish up to 10lb.

GEARYS The very settled weather has seen Gearys in pretty good form over the past week with carp and skimmers dominating the catches. Along the high bank from pegs 7 – 13 the pole at 10 – 13 metres has been working well for skimmers mainly but a few carp are moving later in sessions, pellet is the best bait fished over ground bait. From peg 17 all the way round to peg 31, carp have been showing with pellet feeder, straight lead or pellet waggler all accounting for some decent nets.

LITTLE GEARYS This pool is still in excellent form, highlighted by the new pool record caught by Lee Richards of Birmingham who caught 162lb 15oz in Wednesday's Open from peg 26. Lee caught all of his fish, which were carp to 12lb and lots of F1's from ½lb – 3lb on shallow pole and pellet at 13 metres. Generally all pegs are fishing well with the top methods being shallow pole and pellet, method feeder and meat fished to the island and paste or pellet fished down the near margin.

GRATUITIES Gratuities has been a little more moody than of late, one day fishing well and the next not so good. Crucians to 1lb coming well to pole fished pellet or caster fished down the middle at 11 – 13 metres. Carp and tench are coming better by fishing straight lead with 8mm pellet or a small feeder tight to the island. Most consistent pegs are 1 – 3, 9 and 14 – 16.

ANNIVERSARIES Plenty of tench coming out, particularly from the top end on the point on pegs 1 – 6. Corn or meat float fished over micros is the best tactic for fish to 5lb. The lawn area and the back bank are best for skimmers, roach and rudd with caster or small expanders fished in the open water are best. The warm weather has seen a few double figure carp falling to floaters.

WILLOW On Willow, good for bags of smaller fish with plenty of F1's, small carp, skimmers and crucians coming to basic float tactics. There have been carp to 15lb caught and the bigger fish have fallen to bread or dog biscuit fished on the top.

PACKINGTON SOMERS FISHERY

FORTHCOMING MATCHES

SATURDAY 11th SEPTEMBER – OPEN - MOLANDS

Draw 9am, fish 10am to 3pm.

SUNDAY 12th SEPTEMBER – OPEN – GEARYS

Draw 9am, fish 10am to 3pm.
